# Caramba X-Line

Multiple benefits for your wash business  
through silicone-free preservation and drying

## X-Line Dryer SF | X-Line Wax SF

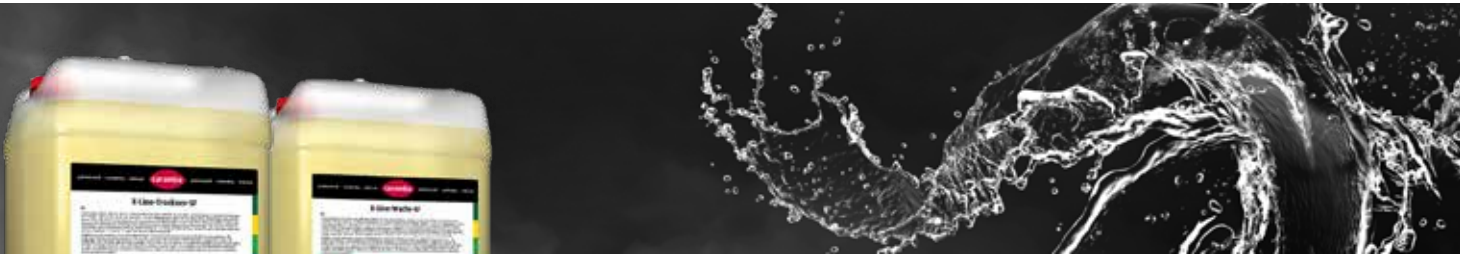

- Top performance, no silicone
- Reduced maintenance due to significantly fewer deposits
- Lower fresh water consumption thanks to better service water quality
- No more paint wetting defects – also ideal for paint processing companies

**Silicone-free X-Line products enable reduced maintenance and more cost-effective wash results.**

## Caramba X-Line: Top performance without silicone

The **Caramba X-Line** stands for innovative premium wash efficiency all along the line. We have replaced the silicone compounds 100% in the newly developed products **X-Line Dryer SF** and **X-Line Wax SF** with an innovative combination of other surface-active substances with a cutting-edge action. The new products convince through:

- Unparalleled drying results
- Full gloss effect
- Long-lasting protection
- Plus: Easy spraying of treated surfaces – also ideal for paint processing companies

All this with no silicone deposits or residues in pipes and service water

**Conclusion: Silicone is no longer required for top performance. Plus, you save on maintenance and fresh water consumption.**

\* Due to silicone components
